eScholar Launches Version 10.0 of Uniq-ID

White Plains, NY – eScholar LLC, the leading provider of student identification systems, is rolling out Version 10.0 of its eScholar Uniq-ID®. State education agencies can use eScholar Uniq-ID® for Staff to assign and manage a unique record identifier for local and state education agency staff members through a web browser.

The highlights of Version 10.0 include, which is available immediately, include:

- Batch File Format
- Multiple Location Assignments
- Person Types – Merged Student & Staff Applications
- Enrollment Events

“On August 8th, we released v10.0 of eScholar Uniq-ID. We are excited to announce that Uniq-ID now supports the assignment of unique identifiers for all person types, including both students and staff members, all within the same application. Additionally, a new submission template has been introduced to provide the ability to capture new data elements such as Address and Enrollment Event information.” Juan Guerrero, Product Manager

About eScholar: eScholar is the leader in education data solutions. eScholar’s award-winning solutions have an impact on over 20 million students in 5,000 school districts across 13 states.
