	5PM-8PM	Evening Event
Friday	9AM-12:30PM	Sessions and Lunch with Closing Remarks

SESSION	TYPE	BRIEF SUMMARY
The Golden Rule	Workshop	eScholar will present its vision and roadmap of how person data within UID could be used as the "single version of the truth" across all data sources. We will go into detail and discuss how a golden record could be created and maintained.
Deep Dive Into ID Management	Workshop	Discussion and training on how to retire IDs, split IDs and resolve near matches.
Matching Overview and Rule Engine Introduction	Presentation	The UID team will review the matching engine logic and present examples as to how matching scores are generated. Additionally, the team will introduce its latest feature, The Rule Engine.
Templates and Integration Methods	Workshop	Should you move to a new file format in Uniq-ID? In this workshop we will review the benefits of using File Format 3.0. We will review all the additional fields and provide you with the tools necessary to work with your internal IT teams and student information systems to move to a newer format.
SIF - Powerschool	Presentation	South Carolina's use of Uniq-ID and the problems faced assigning IDs to students.
Focus group session for UID	Workshop	Gathering requirements and learning about pain points from all customers.
Managing Uniq-IDs in different states - Best Practices	Panel	Three panelists will discuss how they are managing their IDs in each state.
Assigning Staff IDs - PreK, Staff, Workforce and Special Considerations	Panel	What are the different considerations when assigning IDs to Staff, Pre-K, Workforce and other persons?
DirectMatch: What is it and can you use it?	Panel	The panelists will discuss how they are using the DirectMatch module to match student records for Direct Certification (SNAP, Medicaid, TANF, Foster Care, and Migrant students), along to matching against assessment results and other data sets.
How to provide Level 1 support for UID?	Presentation	A first-hand perspective from your peers.
